THE FIVE MOVES

Open the door

Your only lift: bring us into a district meeting you already have. You introduce, we listen.

We do the digging

We map the chokepoints and spec the fix on tooling that already exists. No load on your team.

Wrap into Co-Op

Your line items, your markup, under the contract you already hold. No new bidding.

We run the backend

We stay invisible. You present it, you deploy it, you are the face of the fix.

Report, then expand

Recovered hours at review time earn the next building and budget cycle.

Ready to run move one on a live account?

Send us one active district name — we'll scope the chokepoints and send you the line-item breakdown in 24 hours.

[Start a Partner Sync](#)

“ When one partner vendor lost their Co-Op contract status, the district insisted on keeping our joint solution in place — they kept the revenue and a high-margin relationship competitors couldn't touch. ”

FIELD RECORD — 8 YRS · 2 CO-OP VENDORS · 14 SOLUTIONS · ~\$1M CO-SOLD
